

How to Identify a Wildflower

Making observations is more important than identifying.
Take this sheet on a walk & record what you see.

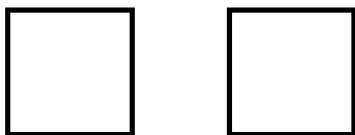

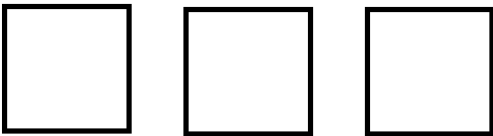

Draw the shape
of the petal

Draw the shape
of the leaf

What colors
did you see?
Put 1 color in
each box

There are other important ways to identify
flowers, like size & habitat. Is it growing tall?

Is it growing near the water or on a dry
slope? Record other observations here.
